Why Infini Works

A trusted, industry-aligned program designed to build real capabilities—not just qualifications.

- Learn what companies actually expect
- Build job-ready skills through real projects
- Start contributing from day one
- Understand project workflows
- Gain Real Industry Exposure & clarity
- Move forward with clear career direction

How You Learn (Not Just Study)

Learn like a professional from day one.

- Practical, job-focused learning
- Hands-on software & tools training
- Real workflows, not classroom theory
- Mentored by industry experts
- Career-focused outcomes
- Confidence & professional growth

The Infini Philosophy - A Different Way to Build Careers

At Infini, we believe careers are built on intent, effort, and real outcomes—not just learning.

We don't believe in shortcuts or empty promises. We focus on practical skills, real-world readiness, and responsible professionals who can perform with confidence.

This philosophy drives everything we do—

how we train, how we mentor, and how we prepare you for real opportunities.

Certification in MS Project^(MSP)

1.5 Months | Live Online | Real Project Cases

About the Program

This 6-week live program helps civil engineers master MS Project to plan, track, and control projects with confidence.

Learn scheduling, progress tracking, and delay analysis through hands-on training - bridging the gap between site execution and project planning.

Is This Program Right for You?

- Working on site and want to move into planning?
- Struggling with tracking progress, delays, or reporting?
- Looking to grow into a planning or project control role?

✓ If you want to move from execution project control, this is for you.

What You Learn

- Project planning & schedule creation using MS Project
- Task linking, resource planning & baseline tracking
- Delay analysis & project performance monitoring
- Reports, dashboards & real project case practice

✓ Master Scheduling. Control Projects.

Key Outcomes

- Build complete project schedules independently
- Track projects like a professional planner
- Identify delays & performance gaps
- Create clear, decision-ready reports
- Develop a planner mindset

Stop Following Plans.
Start Creating Them.

Program Structure

Weekend live sessions – 3 hrs every Sunday

Hands-on MS Project training with real-time scheduling

Topic-wise assignments for practical clarity

Case-based exercises on tracking & delay analysis

Plan.

Track.

Control.

Career Opportunities

- Planning Engineer
- Project Scheduler
- Planning Assist

Eligibility

- BE Civil + Minimum 2 years of site experience
- Diploma Civil + Minimum 4 years of site experience

✓ This skill is highly demanded across contracting firms, PMC, and developers.

Why Choose This Course

- Live training with hands-on MSP practice
- Designed for engineers stuck in execution roles
- Real project-based learning (not theory)
- Short duration — no long career break
- Focus on practical skills + role upgrade

✓ This is not a software course. This is a career shift.
