

infini Institute of Program Management Pune

Recognised centre of EAL, UK

building competency skills

Discerning workforce dilemmas.. making

efficient constructions

Reforming processes, transforming lives.

the ideology

There is a dearth of skilled work force, well equipped with appropriate job skills. The employability of today's Civil Graduate / Engineer is highly questionable. Today's industry is looking for the special work force to fit into the orgnaizaitonal positions. The kind of competencies required are entirely unique and seldom available in engineers. We at infini work on this 'employability skills' gap.

Our foundation is based on the theme - 'redefining education to employment'. Unlike traditional approach that miss-out applied knowledge, we adopted a unique pedagogy designed from employer's perspective. The structured approach aims to make them job ready. Our pedagogy that includes case based and on-field training clubbed with yoga, value education and corporate life skills helps students to mold themselves and faster climb the career ladder.

In short "We build character"...

Transforming people... shaping minds

"Education is the process by which character is formed, strength of mind is increased, and intellect is sharpened, as a result of which one can stand on one's own feet."

infini mission

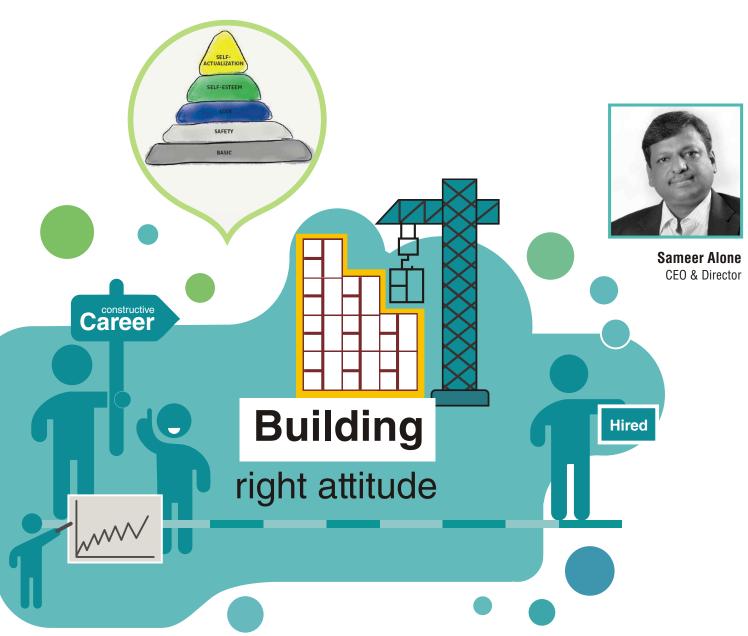

Provide expert training services in Project Controls & Program Management for ensuring on-time success by governing project schedules and cost. Design & deliver competency skills enhancement training programs for graduates, working professionals and teachers from the civil engineering fraternity. To be a nodal agency of psychometric testing & employability skills assessment and couching.

Bridging Skill gaps... improving performance

Attitude, not aptitude, determines altitude.

know infini

"Shaping mind, building skills and transforming lives.." is a thought as well as a process developed by infini Institute that would go a long way in resolving workforce dilemmas, primarily of, the construction industry. On the other hand, it intends to direct civil engineers to make successful careers by meeting gaps between job and knowledge.

Its journey of transforming lives has a beginning at schools and colleges wherein it is utmost important to help child / youth select a right career option, which is best suitable to his aptitude, personality and interest.

Infini Institute of Program
Management Pvt. Ltd. is a
companionship of industry experts,
psychologist, mentors and
academicians having head office in
Pune.

Infini is are a recognized center of EAL, UK (C001338).

infini is a platform created by, for & to Civil Engineers

There is no JOD Crisis, there is skill crisis

Industry today has a lot of people who are technically qualified. But the question remains 'are they employable?' Are they ready to accept and perform higher and challenging responsibilities? They would require some kind of training, some orientation and maybe some increase in personal competency in a particular domain or field.

We are SUCCESSful because we Contribute to the Society

Goodness is the only investment which never fails.

Traitfit Assessment

It's like a magical realism if a person gets a report of his ability, attitude, interests or personality; or specific difficulties, disorders & deficits. Psychometric testing can help with everything from resolving poor concentration or memory problems to assessment of special needs related to a disability, to career planning.

We offer psychometric testing for people of all ages. We are skilled at using a collection of standardised and validated tests that are specifically selected to address our clients' concerns.

Service Areas:

- Employability skills assessment
- Psychometric testing
- Career counseling
- Training

Assessment partner

Employability Skills Assessment & Psychometric testing: iBAT- infini Brainberg Ability Test: Traitfit & Wizquiz

Right career selection at right time is crucial for successful career. The online career assessment makes it easy to opt the right career. The comprehensive career assessment has been developed by the experts. By taking this test and career guidance, the students can easily find out their interest areas, aptitude and personality and opt for a career best suitable to their personality and interest areas. Testing & counseling benefits in -

- taking career decisions.
- determining academic placement for the best learning environment.
- enhancing interpersonal relationships, personal insight and growth.
- enhancing academic performance & self-confidence.
- guiding career to explore new options.

It is a Traitfit test to measure personality attributes, ability, skills, and motivators. Not only this, it will also help measure attitude and ego!

As a HR function, this tool can be used a trusted application to have, get, develop and retain loyal workforce. On the other side, it helps people select better career choice as per core interest and personality attributes. It help -

- to select right candidate for right post
- set appropriate appraisal systems
- predict attrition and further reduction
- enhance productivity & performance
- self development & leadership

Commitment is what transforms a promise into reality.
