Course Description:

When a project goes unchecked, it quickly veers off course, particularly concerning its schedule and budget.

This training program is designed to equip you with practical skills to enhance your approach to project time and cost control. You will learn the fundamentals of scope management, scheduling, cost control, earned value, and forecasting through engaging, hands-on lessons, real-world case studies, and the use of Primavera P6 tools that you can apply immediately. Additionally, integrating billing and contracts will boost your confidence in managing contractual administration.

What is the Best of MDP?

Duration: Three months of classroom training led by experts, featuring case studies followed by on-field training supervised by mentors in esteemed companies.

Placement : Earn high-profile jobs in MNCs, PMCs:

Project Planner, Controller, Scheduler, Contracts professional, cost control professional, PMO associate, project coordinator.

Syllabus:

Trimester 1 (Classroom Training @ 3 months)
